

Sebia acquires Zeus Scientific

The strategic acquisition reinforces Sebia's product portfolio & strategy in autoimmunity

Lisses, France, October 11, 2022 - Sebia, a global specialty diagnostic company providing innovative solutions for screening and diagnostics in oncology, metabolic diseases, genetic disorders and autoimmune diseases, today announces the acquisition of Zeus Scientific, an *In Vitro* Diagnostic (IVD) company based in New Jersey (US) specialized in autoimmune and infectious diseases technologies. Financial terms of the agreement are undisclosed.

The state-of-the-art diagnostic company, Zeus Scientific, will provide synergies and expand Sebia's capabilities and product portfolio in autoimmunity, with a strong footprint in the United States.

"Through this acquisition, we will be able to expand Sebia's capabilities to provide high-value solutions to our customers and patients," said **Jean-Marc Chermette, Sebia's president and CEO**. "Zeus Scientific has developed a strong expertise in autoimmunity and infectious diseases. There are many parallels in our respective R&D programs, as well as benefits for the development of our global commercial network. With this acquisition, Sebia is reinforcing its operations and footprint in the United States, the largest IVD market. I am very pleased to welcome Zeus Scientific associates to the Sebia Group and look forward to a strong collaboration to accelerate innovation and global growth."

Zeus Scientific is a global company focusing on the development, production and marketing of *in vitro* diagnostic tests to detect autoimmune and infectious diseases, available in several different technology applications. Clinical areas include inflammatory rheumatic diseases, serological detection of autoimmune vasculitis, thyroid diagnostics, gastroenterology and a number of infectious diseases, with a strong focus on Lyme disease.

"We are extremely pleased to join the Sebia team," said **Scott Tourville, CEO of Zeus Scientific**. "Its world-leading position in clinical protein electrophoresis and *in vitro* diagnostic testing makes Sebia the ideal company to continue to build on Zeus Scientific's 46-year legacy of diagnostic innovation."

[70% of medical decisions are based on laboratory tests results](#), including *in vitro* diagnostic tests. The global *in vitro* diagnostics market is projected to [reach \\$113.1 billion by 2026 at a CAGR of 2.9%](#). The autoimmune disease diagnostics market was [valued at around \\$1.1 billion in 2021 and is estimated to register over 6.6% CAGR between 2022 and 2030](#).

About Zeus Scientific

Founded in 1976, Zeus Scientific has been developing and manufacturing a wide variety of high quality, *in vitro* diagnostic immunoassays for numerous infectious diseases and autoimmune disorders.

Based in Branchburg, NJ, USA, Zeus Scientific markets its products around the world with both a direct domestic sales team and an extensive international distribution network. Zeus Scientific is a quality-minded, family-owned business that is fully certified and audited to ISO

13485 (2016), MDSAP (Canada, Australia, USA), FDA QSR (1996: 21 CFR part 820), IVD 98/79/EEC and Health Canada MDR (SOR/98-282).

About Sebia

Founded in 1967, Sebia is a world-leading provider of clinical protein electrophoresis equipment and reagents, a technology used for *in vitro* diagnostic testing. Its systems analyze proteins in order to screen and monitor various diseases and conditions; primarily oncology (multiple myeloma) and metabolic disorders such as diabetes, also hemoglobinopathy and rare pathologies.

Following the acquisition of Orgentec, Corgenix and Arotec in 2021, Sebia now develops and markets innovative solutions for autoimmunity diagnostics.

Headquartered in Lisses, France, the company operates across more than 120 countries with 18 direct subsidiaries. Sebia is owned by CVC Capital Partners, Tethys Invest and the Caisse de Dépôt et Placement du Québec (CDPQ).
